# The Engineering Supply Chain Show 2022

Where engineering and manufacturing buyers go to find world-class suppliers, exclusively in the UK engineering and manufacturing supply chain.

Organised by The Manufacturing Technologies Association and being hosted at the NEC in April 2022, this show-within-a-show is part of the MACH exhibition but sits as a separate 3-day event.

Running from **5-7th April 2022**, The Engineering Supply Chain Show will have its own location and entrance in Hall 7 - directly alongside MACH.

Sponsored by Lloyds Bank and the Engineering Industries Association (EIA), this new exhibition has grown out of increased demand for the successful UK Supply Chain Zone at MACH.

This focused event is dedicated to buyers looking to source precision sub-contracting products and services from UK-based suppliers, helping to reduce goods miles as part of the UK's commitment to greener manufacturing.

One common badge will provide unhindered access to both MACH and The Engineering Supply Chain Show while in-hall links will ensure a seamless flow of visitors between the events. Traditionally attracting over 25,000 visitors, MACH is the UK's national event to showcase engineering and manufacturing technologies and is complemented by The Engineering Supply Chain Show, bringing together a wider audience focused on capacity in the UK subcontracting and supply chain sectors.

**DEDICATED TO BUYERS LOOKING TO SOURCE PRECISION SUB-CONTRACTING PRODUCTS AND SERVICES FROM UK-BASED SUPPLIERS**

**Exhibit at the national show for the UK's engineering and manufacturing supply chain**

## Easy exhibiting with stands starting from as little as **£395 per m<sup>2</sup>**

Exhibiting at The Engineering Supply Chain Show allows exhibitors to meet face to face with buyers and procurement professionals with budget authority to spend. Alongside MACH, no other UK event delivers such a strong audience and with government forecasts suggesting UK growth of 5.7% in 2022, there has never been a better time to book your stand.

To exhibit, companies must be UK registered and offer capacity in subcontract or supply chain services. Examples include precision machined-parts subcontracting, castings and forgings, coatings, mechatronic and electronic design and assembly, extrusion, fabrication, finishing, forming, pressings and stampings, tool making, forming and manipulation, vacuum technology and design, development and testing services.

Stands are available in a range of sizes from 6m<sup>2</sup> upwards and prices include a shell scheme stand complete with walls, nameboard, power socket, lighting and carpet.

### Prices:

EIA Members	£335 per m <sup>2</sup>
Lloyds Bank customers	£335 per m <sup>2</sup>
Partner association rate	£355 per m <sup>2</sup>
Non-member	£395 per m <sup>2</sup>

For more information or to book your stand, please call Simon Bytheway on **01952 752518** or email **esc@mta.org.uk**
